

PopulationPrediction

Population Predictions Given Current Rates
In other words an extrapolation!!!

320000000 = Initial Population
5500000 = Birth per year
2600000 = Deaths per year
0.0171875 = Birth Rate
0.008125 = Death Rate

Years	Population	Births	Deaths
0	320000000	5500000	2600000
